

Happy Mother's Day!

*How do they do it?
Mothers simply make
things better!*

Is it the kisses and hugs that make it all better? Perhaps it is the bedtime story or the birthday cake she made just for us! Could it be the home cooked meals? Maybe it was something even greater!

It was the **WORDS** she said as she kissed and hugged our hurts away! Those words at our bedtime or our birthday! What she said at the dinner table while eating those family meals made all the difference! It was those words she taught us that made us better!

Proverbs 31:1 *“The words of king Lemuel, the prophecy that his mother taught him.”*

King Lemuel's mother taught him how to be a good man and find a virtuous woman. Virtuous women teach their children about virtue!
